## Section 2: EX-99.1 (EXHIBIT 99.1 UBFO EARNINGS)

# United Security Bancshares earns 2015 profits of \$6.8 million

FRESNO, CA - February 1, 2016. **United Security Bancshares (Nasdaq: UBFO)**, today announced its unaudited financial results for the quarter ended December 31, 2015. The Company reported consolidated net income of \$1,634,000 or \$0.10 per basic and diluted common share for the quarter ended December 31, 2015, as compared to \$1,556,000 or \$0.10 per basic and diluted common share for the quarter ended December 31, 2014. The Company recognized net income of \$6,810,000 for the year ended December 31, 2015, an improvement of \$594,000, or 9.56%, relative to the net income of \$6,216,000 recognized for the year ended December 31, 2014. Basic and diluted earnings per share increased to \$0.42 for the year ended December 31, 2015, as compared to \$0.39 for the year ended December 31, 2014.

“2015 has been an exceptional year for United Security Bancshares as we grew our loan portfolio, core deposit base, and recognized a 22% year over year increase in core earnings, all while decreasing levels of nonperforming assets and maintaining strong capital and liquidity levels. We look forward to continued success in 2016,” said Dennis R. Woods, President and Chief Executive Officer of the Company. The Company defines core earnings as pretax income less gain or loss on sales, OREO expenses, provision or recovery of provision for loan loss, bonus expense, and gain or loss on fair value of financial liability.

### Fourth Quarter 2015 Highlights (at or for the period ended December 31, 2015)

- Net interest income increased to \$6,745,000, compared to \$6,633,000 in the preceding quarter and \$6,105,000 for the quarter ended

December 31, 2014.

- Net interest margin decreased to 4.14%, when compared to 4.18% in the preceding quarter, and increased from the 3.99% for the quarter ended December 31, 2014.
- Net charge-offs totaled \$1,385,000, compared to net recoveries of \$264,000 in the preceding quarter and net recoveries of \$400,000 for the quarter ended December 31, 2014.
- Total loans increased to \$515,376,000, compared to \$457,595,000 at December 31, 2014.
- Nonperforming assets declined to \$25,648,000, compared to \$29,586,000 at December 31, 2014.
- The allowance for credit losses as a percentage of gross loans declined to 1.88%, compared to 2.35% at December 31, 2014.
- Total deposits increased to \$621,805,000, compared to \$565,373,000 at December 31, 2014.
- Tangible book value per share increased to \$5.30, compared to \$5.08 at December 31, 2014.

Annualized return on average equity (ROAE) for the year ended December 31, 2015 was 7.88%, compared to 7.80% for the year ended December 31, 2014. Annualized return on average assets (ROAA) was 0.98% for the year ended December 31, 2015, compared to 0.93% for the year ended December 31, 2014. The increases in ROAE and ROAA for the year ended December 31, 2015 were primarily due to the growth in the loan portfolio during 2015 and the resulting favorable impact on interest income. Net income increased for the year ended December 31, 2015 compared to the year ended December 31, 2014, and the Company's net interest margin strengthened from 4.01% for the year ended December 31, 2014 to 4.22% for the year ended December 31, 2015. The 21 basis point increase in net interest margin in the period-to-period comparison resulted primarily from the growth of the loan portfolio, which is a higher yielding asset, compared to overnight investments with the Federal Reserve Bank.

Annualized return on average equity (ROAE) for the quarter ended December 31, 2015 was 7.27% compared to 7.51% for the same period in 2014. Annualized return on average assets (ROAA) was 0.90% for the quarter ended December 31, 2015, compared to 0.90% for the same period in 2014.

The Board of Directors of United Security Bancshares declared a fourth quarter 2015 stock dividend of one percent (1%) on December 17, 2015. The stock dividend was payable to shareholders of record on January 4, 2016, and the shares were issued on January 15, 2016. This marks the 29th consecutive quarterly stock dividend since 2008. The Company's Board of Directors has elected to issue stock dividends in order to preserve capital for future growth opportunities. No assurances can be provided that future dividends, whether payable in stock or cash, will be declared and/or as to the timing of such future dividends, if any.

Total assets were up \$62,475,000, or 9.42% for the year ended December 31, 2015, due to net growth of \$57,781,000 in gross loan balances. Loan volume was favorably impacted by the purchase of \$18,924,000 in residential mortgage loans during the first quarter of 2015 in addition to increases in the commercial real estate, agricultural, and student loan portfolios. Total

deposits increased \$56,432,000 or 9.98% to \$621,805,000 during the year ended December 31, 2015. The cost of average deposits declined from 0.20% for the quarter ended December 31, 2014 to 0.18% for the quarter ended December 31, 2015. Shareholders' equity at December 31, 2015 was \$89,635,000, up \$6,809,000 from shareholders' equity of \$82,826,000 at December 31, 2014.

Net interest income for the year ended December 31, 2015 totaled \$26,129,000, an increase of \$2,512,000 from the net interest income of \$23,617,000 for the year ended December 31, 2014. The net interest margin was 4.22% for the year ended December 31, 2015, as compared to 4.01% for the year ended December 31, 2014. The improvement in the net interest margin was primarily due to a shift within average interest-earning assets from low-yielding overnight investments to higher-yielding loans. Net interest income for the quarter ended December 31, 2015 totaled \$6,745,000, an increase of \$640,000 from the \$6,105,000 reported for the quarter ended December 31, 2014. The net interest margin increased to 4.14% for the quarter ended December 31, 2015, as compared to 3.99% for the quarter ended December 31, 2014. The improvement in the net interest margin on a quarterly comparison basis was primarily due to the reinvestment of overnight investments into loans, partially offset by a 13 basis point decrease in yields on the loan portfolio.

Non-interest income for the year ended December 31, 2015 totaled \$4,735,000, reflecting a decrease of \$426,000 from \$5,161,000 in non-interest income reported for the year ended December 31, 2014. Customer service fees continued to provide the majority of the Company's non-interest income, totaling \$3,620,000 and \$3,473,000 for the twelve months ended December 31, 2015 and 2014, respectively. On a year-over-year comparative basis, non-interest income decreased primarily due to a gain of \$691,000 on the sale of an investment in 2014 which did not recur in 2015, partially offset by the \$147,000 increase in customer service fees. Non-interest income for the quarter ended December 31, 2015 totaled \$822,000, reflecting a decrease of \$208,000 from \$1,030,000 in non-interest income reported for the quarter ended December 31, 2014. This decrease was primarily due to \$417,000 in losses recorded on the fair value option of financial liabilities for the quarter ended December 31, 2015, and was partially offset by the \$126,000 increase in customer service fees. Customer service fees totaled \$960,000 for the quarter ended December 31, 2015, as compared to \$834,000 for the quarter ended December 31, 2014.

For the year ended December 31, 2015, non-interest expense totaled \$19,598,000, an increase of \$383,000 compared to \$19,215,000 for the year ended December 31, 2014. On a year-over-year comparative basis, non-interest expense increased due primarily to increases of \$282,000 in occupancy expense and \$268,000 in salaries and employee benefit expenses, compared to the same period ended December 31, 2014. Partially offsetting this increase was a \$319,000 decrease in professional fees. Non-interest expense totaled \$5,195,000 for the quarter ended December 31, 2015, an increase of \$133,000 as compared to \$5,062,000 reported for the quarter ended December 31, 2014.

The Company recorded a recovery of provision for credit losses of \$41,000 for the year ended December 31, 2015 compared with a recovery of provision of \$845,000 for the year ended December 31, 2014. The Company had a recovery of provision for loan loss of \$475,000 for the quarter ended December 31, 2015, compared to a recovery of provision of \$745,000 for the quarter ended December 31, 2014. Net loan losses totaled \$1,017,000 for the year ended December 31, 2015, as compared to net recoveries of \$629,000 for the year ended December 31, 2014. Net loan charge-offs totaled \$1,385,000 for the quarter ended December 31, 2015, as compared to net loan recoveries of \$400,000 for the quarter ended December 31, 2014. For the quarter ended December 31, 2015, the Company recorded charge-offs totaling \$1,426,000 related to two borrower relationships that had been fully reserved for since first quarter 2015.

With a modest recovery in the economy and real estate markets within the Bank's service area, the Company has maintained an adequate allowance for loan losses which totaled 1.88% of total loans at December 31, 2015, a decline compared to 2.35% of total loans at December 31, 2014. The decline in our allowance for loan losses has been driven by the growth in our loan portfolio and a decrease in our historical loss percentages due to lower levels of loan charge-offs and improved credit quality. In determining the adequacy of the allowance for loan losses, the judgment of the Company's management is a significant factor and management considers the allowance for credit losses at December 31, 2015 to be adequate.

Non-performing assets, comprised of nonaccrual loans, troubled debt restructures (TDR), other real estate owned through foreclosure (OREO), and loans more than 90 days past due and still accruing interest, decreased approximately \$3,938,000 between December 31, 2014 and December 31, 2015 to \$25,648,000. Nonperforming assets as a percentage of total assets decreased from 4.46% at December 31, 2014 to 3.53% at December 31, 2015. Nonaccrual loans decreased \$1,742,000 between December 31, 2014 and December 31, 2015 to \$8,193,000. Impaired loans totaled \$23,572,000 at December 31, 2015, an increase of \$7,535,000 from the balance of \$16,037,000 at December 31, 2014. OREO totaled \$12,873,000 at December 31, 2015, a decrease of \$1,137,000 from the balance of \$14,010,000 at December 31, 2014.
