United Security Bancshares earns 2nd Quarter 2016 profits of \$2.0 million

FRESNO, CA - July 14, 2016. **United Security Bancshares (Nasdaq: UBFO)**, today announced its unaudited financial results for the quarter ended June 30, 2016. The Company reported consolidated net income of \$2,021,000 or \$0.12 per basic and diluted common share for the quarter ended June 30, 2016, as compared to \$2,063,000 or \$0.13 per basic and diluted common share for the quarter ended June 30, 2015. The Company recognized net income of \$3,790,000 for the six months ended June 30, 2016, an improvement of \$499,000, or 15.16%, relative to the net income of \$3,291,000 recognized for the six months ended June 30, 2015. Basic and diluted earnings per share increased to \$0.23 for the six months ended June 30, 2016, as compared to \$0.20 for the six months ended June 30, 2015.

"We have experienced exceptional growth in our loan portfolio during the first half of the year while maintaining strong liquidity and capital levels. Our credit quality continues to improve with a 19% reduction in nonperforming assets, relative to year end 2015, as a result of sales of OREO assets. We look forward to continuing this momentum in the second half of the year." said Dennis R. Woods, President and Chief Executive Officer of the Company.

Second Quarter 2016 Highlights (at or for the period ended June 30, 2016)

- Net interest income increased to \$6,666,000, compared to \$6,526,000 for the quarter ended June 30, 2015, and increased from \$6,611,000 in the preceding quarter.
- Net interest margin decreased to 3.92%, when compared to 4.12% in the preceding quarter, and 4.30% for the quarter ended June 30, 2015.
- Net charge-offs totaled \$821,000, compared to net recoveries of \$27,000 in the preceding quarter and net recoveries of \$264,000 for the quarter ended June 30, 2015.
- Total loans increased to \$558,668,000, compared to \$515,376,000 at December 31, 2015.
- Nonperforming assets declined \$5,972,000 to \$26,122,000, compared to \$32,094,000 at December 31, 2015.
- Other real estate owned declined \$5,419,000 to \$7,454,000, compared to \$12,873,000 at December 31, 2015.
- The allowance for credit losses as a percentage of gross loans declined to 1.60%, compared to 1.88% at December 31, 2015.
- Total deposits increased to \$636,949,000, compared to \$621,805,000 at December 31, 2015.
- Tangible book value per share increased to \$5.44, compared to \$5.30 at December 31, 2015.

Annualized return on average equity (ROAE) for the six months ended June 30, 2016 was 8.30%, compared to 7.85% for the six months ended June 30, 2015. Annualized return on average assets (ROAA) was 1.03% for the six months ended June 30, 2016, compared to 0.98% for the six months ended June 30, 2015. The increases in ROAE and ROAA for the six months ended June 30, 2016 were primarily due to the growth in the loan portfolio during the later half of 2015 and the first half of 2016 and the resulting favorable impact on interest income. ROAE for the quarter ended June 30, 2016 was 8.76% compared to 9.70% for the same period in 2015. ROAA was 1.07% for the quarter ended June 30, 2016, compared to 1.21% for the same period in 2015. The decline in ROAA for the quarter ended June 30, 2016 is attributed to increases in low-yielding overnight fed funds average balances. The cost of average deposits was 0.17% for both the quarter ended June 30, 2015 and the quarter ended June 30, 2016. Shareholders' equity at June 30, 2016 was \$93,638,000, up \$4,003,000 from shareholders' equity of \$89,635,000 at December 31, 2015.

Net interest income increased for the six months ended June 30, 2016 compared to the same period ended June 30, 2015, but the Company's net interest margin declined from 4.28% for the six months ended June 30, 2015 to 4.01% for the six months ended June 30, 2016. The 27 basis point decrease in net interest margin in the period-to-period comparison resulted primarily from growth in average balances on overnight investments which are a low-yielding asset. The 16 basis point decrease in loan yields is the result of strong loan growth in lower-yielding mortgage loans and competitive pressures on loan yields. Net interest income for the quarter ended June 30, 2016 totaled \$6,666,000, an increase of \$140,000 from the \$6,526,000 reported for the quarter ended June 30, 2015. The net interest margin decreased to 3.92% for the quarter ended June 30, 2016, as compared to 4.30% for the quarter ended June 30, 2015. The decline in the net interest margin on a quarterly comparison basis was primarily due to the increase in average balances on overnight fed funds investments at a lower yield.

The Board of Directors of United Security Bancshares declared a second quarter 2016 stock dividend of one percent (1%) on June 28, 2016. The stock dividend was payable to shareholders of record on July 8, 2016, and the shares will be issued on July

18, 2016. This marks the 31st consecutive quarterly stock dividend since 2008. The Company's Board of Directors has elected to issue stock dividends in order to preserve capital for future growth opportunities. No assurances can be provided that future dividends, whether payable in stock or cash, will be declared and/or as to the timing of such future dividends, if any.

Total assets were up \$18,426,000, or 2.54% for the six months ended June 30, 2016, due to net growth of \$11,742,000 in the investment portfolio and \$43,292,000 in gross loan balances. Loan volume was favorably impacted by the purchase of \$40,609,000 in residential mortgage loans during the first half of 2016 in addition to organic growth in real estate construction and development loans and commercial and industrial loans. Total deposits increased \$15,144,000, or 2.44%, to \$636,949,000 during the six months ended June 30, 2016.

Net interest income for the six months ended June 30, 2016 totaled \$13,277,000, an increase of \$527,000 from the net interest income of \$12,750,000 for the same period ended June 30, 2015. Net interest income for the quarter ended June 30, 2016 totaled \$6,654,000, an increase of \$126,000 from the net interest income of \$6,528,000 for the same period ended June 30, 2015. The increase in net interest income on a quarterly and year-over-year comparison is the result of growth in the loan portfolio and increase in the rate on overnight investments in fed funds.

Non-interest income for the six months ended June 30, 2016 totaled \$2,988,000, reflecting an increase of \$521,000 from \$2,467,000 in non-interest income reported for the six months ended June 30, 2015. Customer service fees which represent the largest portion of the Company's non-interest income, totaled \$1,943,000 and \$1,699,000 for the six months ended June 30, 2016 and 2015, respectively. On a year-over-year comparative basis, non-interest income increased primarily due to the change in fair value option of financial liability. The Company recorded a \$471,000 gain on the fair value option of financial liability for the six months ended June 30, 2016, compared to a \$199,000 gain for the same period ended June 30, 2015.

Non-interest income for the quarter ended June 30, 2016 totaled \$1,427,000, reflecting a decrease of \$119,000 from \$1,546,000 in non-interest income reported for the quarter ended June 30, 2015. This decrease was primarily due to a decrease of \$211,000 in the gain recorded on the fair value option of financial liability when comparing the two quarters and was partially offset by a \$151,000 increase in customer service fees. Customer service fees totaled \$1,017,000 for the quarter ended June 30, 2016, as compared to \$866,000 for the quarter ended June 30, 2015.

For the six months ended June 30, 2016, non-interest expense totaled \$10,124,000, an increase of \$734,000 compared to \$9,390,000 for the six months ended June 30, 2015. On a year-over-year comparative basis, non-interest expense increased due primarily to increases of \$354,000 in salaries and employee benefit expenses, \$190,000 in professional fees, and \$141,000 in occupancy expenses, compared to the same period ended June 30, 2015. Professional fees for the six months ended June 30, 2016 include a \$125,000 legal settlement that management does not believe will recur in future quarters.

Non-interest expense totaled \$4,824,000 for the quarter ended June 30, 2016, an increase of \$142,000 as compared to \$4,682,000 reported for the quarter ended June 30, 2015. On a quarter-over-quarter comparative basis, non-interest expense increased primarily due to increases in salaries and employee benefit expenses.

The Company recorded a recovery of provision for credit losses of \$10,000 for the six months ended June 30, 2016, compared to a provision of \$457,000 for the six months ended June 30, 2015. Net loan charge-offs totaled \$794,000 for the six months ended June 30, 2016, as compared to net recoveries of \$324,000 for the six months ended June 30, 2015. The Company had a provision for loan loss of \$12,000 for the quarter ended June 30, 2016, compared to a recovery of provision for credit losses of \$2,000 for the quarter ended June 30, 2015. Net loan charge-offs totaled \$821,000 for the quarter ended June 30, 2016, as compared to net loan recoveries of \$264,000 for the quarter ended June 30, 2015.

With a modest recovery in the economy and real estate markets within the Company's service area, the Company has maintained an adequate allowance for loan losses which totaled 1.60% of total loans at June 30, 2016, compared to 1.88% of total loans at December 31, 2015. The allowance for loan loss as a percentage of loans has declined over the last few years due to growth in our loan portfolio and improved credit quality as evidenced by lower levels of loan charge-offs and improved economic conditions. Although the allowance for loan loss as a percentage of loans has declined, the Company's percentage still remains higher than the peer group average of 1.35% as of March 31, 2016. In determining the adequacy of the allowance for loan losses, the judgment of the Company's management is a significant factor and management considers the allowance for credit losses at June 30, 2016 to be adequate.

Non-performing assets, comprised of nonaccrual loans, troubled debt restructures (TDR), other real estate owned through foreclosure (OREO), and loans more than 90 days past due and still accruing interest, decreased approximately \$5,972,000 between December 31, 2015 and June 30, 2016 to \$26,122,000. Nonperforming assets as a percentage of total assets decreased from 4.42% at December 31, 2015 to 3.51% at June 30, 2016. The reduction in nonperforming assets is primarily the result of partial sales on two OREO properties. Nonaccrual loans decreased \$631,000 between December 31, 2015 and June 30, 2016 to

\$7,562,000. Impaired loans totaled \$23,040,000 at June 30, 2016, a decrease of \$572,000 from the balance of \$23,612,000 at December 31, 2015. OREO totaled \$7,454,000 at June 30, 2016, a decrease of \$5,419,000 from the balance of \$12,873,000 at December 31, 2015.
